AUTOMATION ENGINEER

Automation Engineer with more than three years of experience in designing, developing, and validating workflow automation solutions for business operations. Proficient in Python scripting, API integrations, database validation, cross functional tier testing and end-to-end workflow automations. Skilled in building automation solutions, testing integrations across BMC, ESB and AIOPs platforms, and ensuring reliability through functional and integration testing.

SKILLS

Python development, Workflow Automation, ESB Integrations, CanvasAIOPs, Selenium, Jira, Agile Methodology, Java, Python, Automation Testing, Functional Testing, Integration Testing, SDET

EXPERIENCE

LTM (ENEC - Automation Engineer) **June 2023 - Present**

ENEC is a UAE government owned organisation responsible for developing the Barakah Nuclear Power Plant and managing nuclear energy programs, operations and safety.

- Designed and developed 25+ Python-based automation scripts to streamline workflows.
- Built and automation solutions integrating ESB APIs, BMC, CanvasAIOPs tool and databases.
- Performed end-to-end development of automated ticket lifecycle management processes.
- Managed workflow execution by running master scripts on Linux servers via PuTTY and verified successful processing for all use cases.
- Investigated production issues, analysed logs, and implemented code fixes to improve reliability.
- Collaborated with business stakeholders and technical teams to gather requirements and convert them into automation workflows.
- Conducted integration, and regression testing for new features, and production releases.

PROJECTS

Triage AI - Python IT ticket router with automated human-in-the-loop escalation. [link]

- Built a self-governing AI ticket agent (Python, FastAPI, scikit-learn, SQL) with risk-based autonomy, prompt-injection defence and a human-feedback retraining loop, backed by 46 tests.

TOOLS & TECHNOLOGIES

- **Testing**: Functional Testing, Integration Testing, API Testing, Regression Testing, UAT Support
- **Automation & Scripting**: Python, Workflow Automation
- **Platforms**: CanvasAIOps
- **Databases**: SQL
- **Process**: Web Application Automation, Incident and task automation, Active Directory automation

EDUCATION

Master of Computer Science in distance education **in Annamalai University** **June 2023 - June 2025**
Bachelor of Computer Science in **PSGR Krishnammal College for Women** **June 2020 - June 2023**

CERTIFICATIONS

- Completed Selenium for Testing course in Shoshin School, LTM.
- Completed Automation course in Shoshin School, which has a suite of 7 sub courses.
- Completed 101 - Artificial Intelligence course in Shoshin School, LTM.
- Completed Certified in Cybersecurity Course from ISC2 | Certificate
- Completed Security Principles, Access Control Concepts from CC | Certificate
- Completed Building Resilient Bots using Automation 360 from Automation Anywhere | Certificate
- Completed Introduction to Cybersecurity and Network Basics provided by Cisco Networking Academy | Certificate
